Policy Screening Form

1.	Policy Reference (Equality use only)	E 228
2.	Policy Name	2021/22 Arts and Tourism Events Transition Plan
3.	Existing / Revised / New Policy	New policy
4.	Responsible Officer	Head of Tourism
5.	Description of policy to be screened	Each year Council manages and delivers a series of Arts and Tourism Events. The Events and the programming of each has remained reasonably consistent since Council merger. Since March 2020 the delivery of Events has been impossible due to Covid 19. All season 20/21 events were cancelled by Council and it is not known when restrictions will be lifted sufficiently to enable events to take place again. This is starting to look more favourable due to the vaccination programme. However, for planning purposes an Arts and Tourism Events Transition Plan has been developed, which will be kept under review in line with Health Regulations and restrictions. During the last year Council completed the development of the Borough Events Strategic Direction document. Throughout this process, key principles for how the Council might consider its support and delivery of events have emerged. Significant areas of 'change' have been identified. It is acknowledged that this will require time and resource to research and develop, therefore the timeline is indicative. Council approved the Borough Events Strategic Direction in November 2020 and Officers have developed an Arts and Tourism Events Transition Plan considering similar programme activity delivered in various previous events.
	Aims and Expected Outcomes – what is the Policy expected to achieve?	To develop an Arts and Tourism Event Transition Programme which can deliver safe, sustainable events and meeting the Corporate Plan objectives and taking cognisance of learnings and recommendations from the Borough Events Strategic Direction document. Delivering broadest outcomes during a continuing financially and Covid challenging period.

6.	Section 75 categories which might be expected to benefit and how they may benefit.	All Section 75 categories are expected to benefit from the delivery of the transitional Arts and Tourism Event Programme 21/22
7.	Factors which could contribute to / detract from the intended aims / outcomes of the Policy when being implemented	If the Transitional Arts and Tourism Event Programme is not delivered as intended. The Events sector has been greatly impacted by Covid 19 The new events 'landscape' is unknown at present, but it is beginning to look more optimistic. Possible further restrictions. Financial constraints.
8.	The main stakeholders on whom the policy will impact. For example, Employees, Potential Service Users and Community Groups Consider the internal and external impacts (either actual or potential) and comment, or list, information where appropriate	The Council, Elected Members, employees, residents of the Borough, visitors to the Borough, businesses and employees within the Borough, local event organisers, service providers and potential providers and attendees at events. Political
Opinion

Summary:

Electoral Office data from recent Local Government elections detail the political representation on Ards and North Down Council, The Stormont Executive for this electoral area and Westminster election. This data is an approximate measure of political opinion of the voting electorate within the Borough. Turnout to vote in North Down and Strangford constituencies tend to be lower than the rest of NI suggesting less strong political opinions. Of those who do turn out, the results show preferences for voting Unionist parties.

Sexual orientation

Summary:

It should be noted that no reliable data is available on sexual orientation-NISRA are currently examining methodology on how to measure this. However, the 2011 census indicates that less than 1% of the Northern Ireland adult population (those aged 16 years and over) were in a registered same-sex civil partnership. This was similar to the borough as a whole. The Continuous Household Survey in Northern Ireland estimated this figure between 0.9% and 1.9% in 2015-2016. The

		Office for National Statistics estimates a similar range for the United Kingdom (1.7%). Source: Northern Ireland 2011 Census, Marital Status ONS 2015 Sexual Identity
