Sexual orientation

Summary:

It should be noted that no reliable data is available on sexual orientation-NISRA are currently examining methodology on how to measure this. However, the 2011 census indicates that less than 1% of the Northern Ireland adult population (those aged 16 years and over) were in a registered same-sex civil partnership. This was similar to the borough as a whole. The Continuous Household Survey in Northern Ireland estimated this figure between 0.9% and 1.9% in 2015-2016. The Office for National Statistics estimates a similar range for the United Kingdom (1.7%).
