Sexual orientation	<p>Summary: It should be noted that no reliable data is available on sexual orientation-NISRA are currently examining methodology on how to measure this. However, the 2011 census indicates that less than 1% of the Northern Ireland adult population (those aged 16 years and over) were in a registered same-sex civil partnership. This was similar to the borough as a whole. The Continuous Household Survey in Northern Ireland estimated this figure between 0.9% and 1.9% in 2015-2016. The Office for National Statistics estimates a similar range for the United Kingdom (1.7%).</p> <p>Source: Northern Ireland 2011 Census, Marital Status ONS 2015 Sexual Identity</p>

Additional Considerations

Multiple Identity Considerations	Details of Impact or potential impact (Positive/Negative)
<p>Are there any potential impacts of the policy decision on people with multiple identities? (e.g. disabled minority ethnic persons). Where appropriate provide details of data on the impact of the policy on people with multiple identities. Specify relevant Section 75 categories concerned.</p>	N/A guided walks and tour are open to all. The programme will include activity that is all accessibility "friendly" to the best of ability.

Disability Discrimination Order (NI) 2006

<p>Does this proposed policy provide an opportunity to:</p> <ul style="list-style-type: none"> - <u>better promote positive attitudes</u> towards disabled people - <u>increase participation</u> by disabled people in public life 	Yes	<p>Explain your reasoning:</p> <p>Guided walks and tours are open to all within the limitations of sites / elements of the walks / tours in question. Elements of the programme are accessible to all to the best of our ability and therefore allow for disabled to mix with non-disabled in turn benefitting positive attitudes.</p>
	Yes	<p>The programme will include activity that is all accessibility "friendly" to the best of our ability to allow inclusiveness with various walks/tours allowing for participation by disabled.</p>

Monitoring Arrangements

Section 75 places a requirement on the Council to have equality monitoring arrangements in place to assess the impact of policies and services, help identify barriers to fair participation and to better promote equality of opportunity.

	Outline what data you could collect in the future to monitor the impact of this policy / decision on <u>equality, good relations and disability duties</u>	Online surveys are issued to participants / customers on the guided walks and tours. Due to the nature of the programme it is inclusive with no rationale existing to seek to specifically determine people's backgrounds / disabilities etc. To do so may work in a negative way by making it a part of a "casual" programme of guided walks and tours open to all where such topics would likely not have been a consideration to those seeking to participate at the offset.
