## 1. Introduction

<b>Name of Service</b>	Community Planning Service
<b>Included Service Units</b>	Community Planning
<b>Directorate</b>	Chief Executive's
<b>Purpose of Service</b>	<p>The Local Government Act (NI) 2014 requires Ards and North Down Borough Council to initiate, maintain, facilitate and participate in community planning for our district. The Council is the lead partner and is required to put in place a process where we work with bodies (both named statutory and non-statutory) to develop and implement a shared vision for promoting well-being, increasing community cohesion and improving the quality of life of our citizens.</p> <p>The Community Planning Service works across the whole of the borough and on a range of issues that often fall outside the remit of the Council. The Service is responsible for working with Community Planning Partners, support organisations, government departments and all Council directorates to ensure the community plan is embraced, implemented and reported on in accordance with the legislation.</p> <p>The Community Planning Service:</p> <ul style="list-style-type: none"> <li>• facilitates and manages the community planning process including putting in place appropriate governance structures.</li> <li>• ensures that the commitments set out in the Council's equality scheme are applied in the development and implementation, monitoring and review of the community plan.</li> <li>• works collaboratively with our statutory community planning partners and identifies support partners to implement the community plan and monitor its' impact</li> <li>• collates and manages a statistical evidence base to inform the community planning process and to support other council services.</li> <li>• monitors the whole population impact of community planning via an agreed suite of indicators and the production of Performance Update Reports.</li> <li>• facilitates partners being able to collaborate with each other to implement and report on shared activities. where the community planning process adds value</li> <li>• ensures that community involvement and engagement is an integral part of the full community planning process.</li> </ul> <p>The purpose and priority of the Community Planning Service is to work with both internal and external partners to progress the aspirations and commitments made within the Big Plan for Ards and North Down 2017-2032</p>

**Key customers/ stakeholders and their needs**

**Strategic Community Planning Partnership Members**

Responsible for the development of the Big Plan and its implementation. Need to be provided with information on progress to enable them to make decisions on budgets and resources within their own organisations. In 2022-23 will meet three times a year.

**Priority Issues Workstream Groups**

A review of community planning priorities was completed in 2019, but the Covid pandemic meant that publication of the updated document 'Our Big Priorities' was delayed by 12 months. Actions to be taken forward under each of the Big Plan priority issues are co-ordinated by appropriate workstream groups.

**3<sup>rd</sup> Sector Community Planning Forum Members**

Meets twice a year, members also attend Workstream Groups and Chairperson is a member of the Strategic Community Planning Partner.

**Council Services**

Communication about the Big Plan and information on outcomes, priorities and workstreams should be integrated within their own service areas. Statistical information, data collection and analysis.

**Elected Members**

Communication about the Big Plan and awareness of the needs of constituents and identified priorities for collaboration should improve the wellbeing of everybody within their constituency. Delivery of an Age Friendly borough via the Elected Member Development Group's Charter Plus programme.

**Department for Communities**

The Department is the primary sponsor of the legislation governing community planning and the service will have to adhere to any future guidance or performance reporting requirements

**AND Residents**

Engagement and ensuring the Big Plan and its implementation are reflective of their needs. Once a year we aim to undertake a concentrated engagement activity. During 2020-21 we piloted a Big Conversation Panel engagement tool to receive feedback on several issues.

**Context, challenges & key assumptions**

Implementation of the Big Plan, published March 2016, is overseen by Ards and North Down's Strategic Community Planning Partnership (SCPP), with its own Partnership Agreement, operating outside the remit of the Council. The Partnership Agreement establishes that all members of the Partnership are equal and that the Big Plan is a collaborative document with shared responsibility for delivery.

Ards and North Down Borough Council must demonstrate how and where our services and programmes contribute to the achievement of the outcomes within the Big Plan. The Council's Corporate Plan for Ards and North Down demonstrates close links to the Big Plan, with the same outcomes and vision echoed across both documents.

	<p>There is a statutory link between the Community Plan and the Local Development Plan (LDP). This means during the development of the LDP, consideration must be given to how the LDP will help the Big Plan achieve its five outcomes.</p> <p>The Big Plan for Ards and North Down should link to the Northern Ireland Executive's Programme for Government. Both plans have been developed using outcomes and indicators.</p> <p>Partnership resources and commitment will continue to be a challenge, as will the pressures on the limited resources of the Community Planning Service. Considerable work is still needed on the identification of available data as well as agreements on how to deal with the emerging 'data development agenda'.</p>
<p><b>Reflection on previous performance – successes and lessons learned</b></p>	<p><b>Measurable achievements from previous service planning cycles:</b></p> <p><b>2016/17</b> – Publication of the Big Plan for Ards and North Down</p> <p><b>2017/18</b> – Endorsement of three delivery plans containing actions to implement the Big Plan and progress towards its five aspirational outcomes</p> <p><b>2018/19</b> – Turning the Curve reports and Performance Scorecards written for all delivery plan actions and database and Performance Update Report templates set up to monitor the effectiveness of community planning delivery</p> <p><b>2019/20</b> – Publication of the first Statement of Progress and initiation of a review progress to make community planning more tangible</p> <p><b>2020/21 – Covid-19 Pandemic</b>  <i>Community planning Service quickly moved from delivering against the aspirations of the Big Plan to co-ordinating the Council's Community Support Plan and delivery 15,000 food parcels to people who found themselves vulnerable. The Service also established the Community Covid Recovery Steering Group to co-ordinate ongoing efforts by Council colleagues and other Community Planning Partners to identify need and put in place services to mitigate against long-term social damage caused by the pandemic.</i></p> <p><b>2021-22</b> – The Big Conversation Panel, publication of the 2<sup>nd</sup> Statement of Progress (Together we Made a Difference), publication of outcome of Big Plan review (Our Big Priorities), publication of updated Assessment of Wellbeing and review of Big Plan indicators.</p>

## 2. How does our Service contribute to community planning outcomes and PEOPLE priorities?

The Community Plan (The Big Plan for Ards and North Down) is a high level, outcomes focused, document that sits a level above the Council's Corporate Plan. The Council's new Corporate Plan is aligned with the borough's community plan as it mirrors both the vision and outcomes of the Big Plan. The PEOPLE priorities explain how the Council's statutory functions and wider remit help contribute to the aspirations for the borough as set out in the Big Plan.

The link between the Big Plan Outcomes and the PEOPLE Priorities is explained in the table below:

<b>PEOPLE Priorities</b>	<b>Big Plan Outcome All people in Ards and North Down ...</b>	<b>Our focus for 2022/2023 (Big Plan Priority Workstreams)</b>
Prosperity	Outcome 4: Benefit from a prosperous economy	P7 – Better jobs and skills P8 – Economic inequalities (poverty)
Environment	Outcome 5: Feel pride from having access to a well-managed sustainable environment	P9 – Sustainability P10 – Valuing our environment
Opportunity	Outcome 1: Fulfil their lifelong potential	P1 – Resilience, democracy and empowerment P2 – Infrastructure and the public estate
Pride	Outcome 3: Live in communities where they are respected, are safe and feel secure	P5 – Welcoming to everyone P6 – Vulnerable people
Life	Outcome 2: Enjoy good health and wellbeing	P3 – Emotional wellbeing P4 – Health equity
Excellence	The is an enabling priority	Engagement, communication and monitoring of progress

The overarching, cross-cutting ambition of the Big Plan is to have empowered, resilient individuals and communities; to reduce inequality; to promote good relations and sustainability; and to improve the accessibility of all public services.

SPECIFIED ASPECTS OF IMPROVEMENT	
What will this improve?	Definition
Strategic Effectiveness	<i>is key to <b>linking</b> the community plan, and the ongoing processes that underpin it, with a council's improvement processes. The Department would expect that a council's strategic community planning outcomes and objectives should be central to that council's improvement activity and clearly contribute to the strategic effectiveness aspect.</i>
Service Quality	<i>all relate to service provision by aiming to meet the needs of citizens and ensuring fair ease of access to the most suitable services that meet their needs. Clearly, all of these objectives can be demonstrated individually or collectively. Fairness can also be demonstrated by exercising non-service functions in ways which reduce disadvantage and improve social well-being, for instance by improving citizens' access to information or by addressing inequalities experienced by Section 75 groups.</i>
Service Availability	
Fairness	
Sustainability	<i>When carrying out its functions or providing services, a council may demonstrate improvement when it operates in a way that contributes towards the sustainability of its area, as required under the Northern Ireland (Miscellaneous Provisions) Act 2006 and the associated Northern Ireland Executive Sustainable Development Strategy. on-going efficiency may also be shown if fewer resources are utilised while maintaining provision of substantially similar or better services. Should a council choose to alter the manner by which a service is provided and in so doing it uses fewer resources or more integrated services, it will not only be demonstrating efficiency, but may demonstrate improved sustainability as well</i>
Efficiency	
Innovation	<i>any changes to service design and delivery methods that are intended to yield improvement under any other aspect and are reasonably likely to do so. This allows councils to make changes which may not have tangible effects within the same reporting year, but are likely to in subsequent years, and still count them as improvements.</i>

## **6. Monitoring and Review**

The Community Planning governance structure is responsible for ensuring the delivery of the Community Plan is completed on time and that appropriate indicators are used to measure the ability of the Plan to 'turn the curve' and deliver the desired outcomes.

Regular meeting of the Strategic Community Planning Partnership and the various delivery groups will also monitor the delivery of the Community Plan.

## **7. Conclusions**

Highlights will include:

- 1 Annual report including performance update information outlining further progress across 10 Big Plan priorities and the Big Plan indicators
- Delivery of workstream action plans
